

Residential & Commercial Skylights

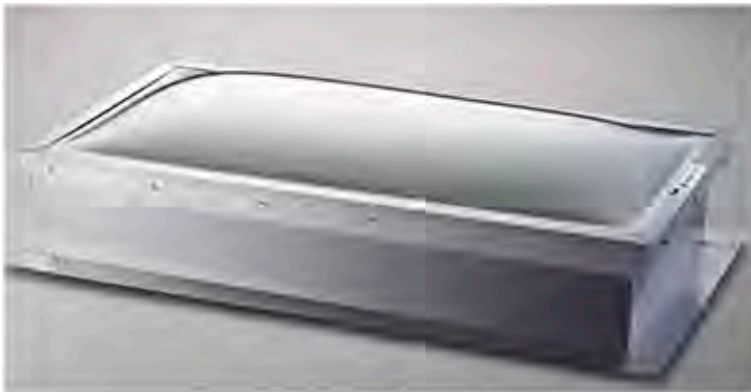

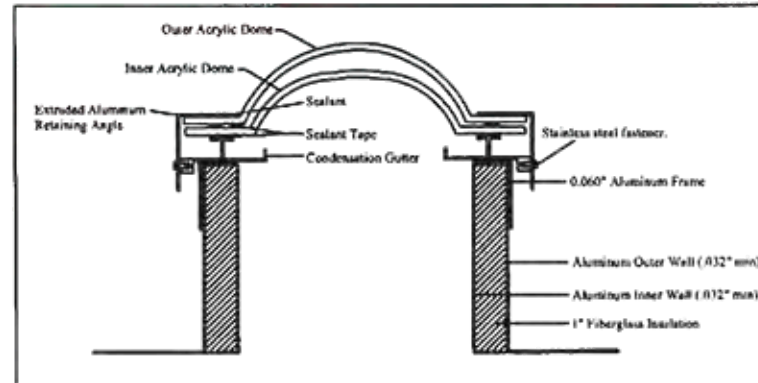

Curb Mount: Commercial

Features: One piece design for quick and easy installation. Allows installer to use site built or pre-fabricated curb to meet specific job requirements. Use on pitched or flat roof. See back cover for unlimited sizes, glazing and finish options.

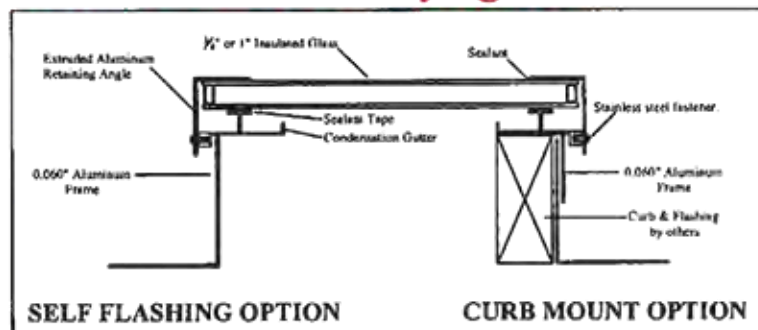

Self Flashing: Commercial - 9" & 12"

Features: One piece design, with integral 9" or 12" curb, for quick and easy installation directly to the roof deck. Use on flat roofs for single ply (single curb wall) or built up (insulated curb wall) roofing materials. See back cover for unlimited sizes, glazing and finish options.

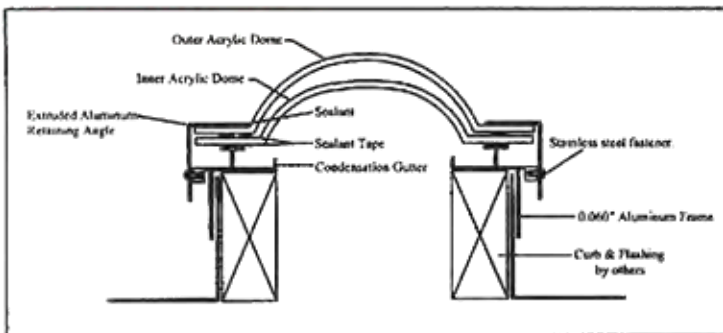

Insulated Glass Skylights

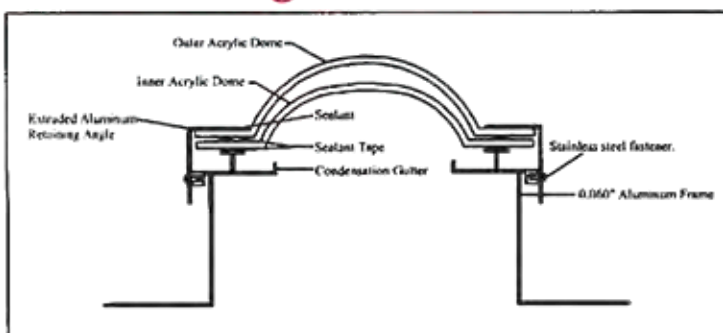

Features: One piece design for quick and easy installation directly to the roof deck or allows installer to use site built or pre-fabricated curb to meet specific job requirements. Use on pitched roofs only with shingle or other low profile roofing materials. See back cover for unlimited sizes, glazing and finish options.

Curb Mount

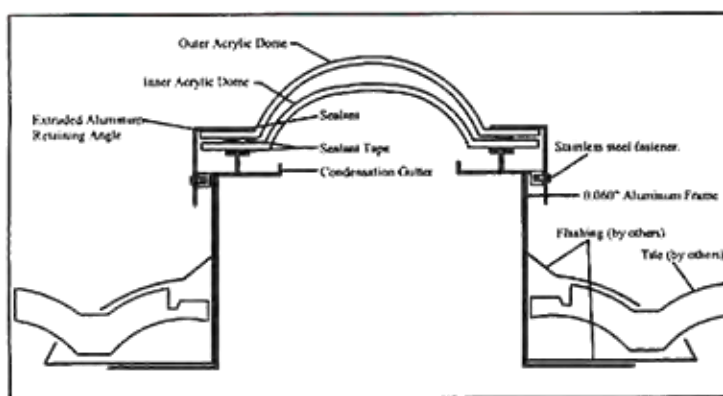

Features: One piece design for quick and easy installation on site built curb. Use on pitched or flat roof. See back cover for unlimited sizes, glazing and finish options.

Self Flashing: Low Profile

Features: One piece design for quick and easy installation directly to the roof deck. Use on pitched roofs with shingle or other low profile roofing materials. See back cover for unlimited sizes, glazing and finish options.

Self Flashing: High Profile

Features: One piece design for quick and easy installation directly to the roof deck. Use on pitched roofs with concrete, clay, metal or other high profile roofing materials. See back cover for unlimited sizes, glazing and finish options.

Maxim Industries, Inc. presents its full line of Residential and Commercial Self Flashing and Curb Mount skylights.

Warranty:

Maxim Industries, Inc. provides a warranty against material or workmanship defects of the plastic glazing and aluminum frame for a period of five years from the date of delivery. This warrant covers skylights that have been installed in accordance with installation guidelines and product shop drawings. Any alteration or modifications to the glazing or frame will void any warranty. **The glazing (domes) is not covered against distortion or marring to the clarity or finish due to improper cleaning.** Cleaning of glazing with anything other than mild soap and water will void this warranty.
